EMMANUEL REUBEN

Lagos Nigeria, +2349035799404 • emmanuelokukusie1@gmail.com

Professional Summary

A skilled Frontend Developer with over one year of experience in building dynamic, user-friendly web applications using HTML, CSS, JavaScript, and frameworks like React.js and Angular. Expertise in creating responsive, performance-optimized interfaces and integrating APIs to enhance functionality. Proven ability to collaborate within Agile teams to deliver high-quality solutions on time, while staying current with industry trends and best practices to drive continuous improvement

Core Competence

- **Proficiency in Web Development Technologies**: Strong skills in HTML, CSS, JavaScript, and modern frameworks like React, Angular, or Vue.js.
- **Responsive Design and Development**: Expertise in creating mobile-first and cross-browser-compatible interfaces using frameworks like Bootstrap or Tailwind CSS.
- **UI/UX Design Implementation**: Ability to translate design prototypes into functional, pixel-perfect web pages while maintaining an intuitive user experience.
- **Version Control**: Proficient in Git and platforms like GitHub, GitLab, or Bitbucket for team collaboration.
- **Performance Optimization**: Skills in optimizing web applications for speed and scalability, including image compression, lazy loading, and code splitting.
- **Testing and Debugging**: Familiarity with tools like Jest, Mocha, or Cypress for unit, integration, and end-to-end testing.

Work History

Frontend Developer, July to November 2024
Pensioners Software Project – Remote

- Designed responsive user interfaces using HTML, CSS, and JavaScript, ensuring compatibility and performance.
- Developed dynamic web applications utilizing modern frameworks like React.js and Angular, improving user engagement by 30%.
- Translated design mockups into pixel-perfect web pages, collaborating closely with UI/UX teams to enhance user experience.
- Optimized website performance by reducing page load time by 40% through efficient code practices
- Built reusable code components and libraries for future use, streamlining development processes.

Frontend Developer, May to July, 2024
FastMedics – Remote

- Integrated APIs and third-party services to enhance web application functionality, including real-time data rendering.
- Implemented state management solutions such as Redux to ensure seamless data flow in complex applications.
- Conducted unit and integration testing using tools like Jest and Cypress, maintaining a 95% code coverage rate.
- Improved website accessibility by adhering to WCAG standards, achieving an AA compliance level.
- Worked in Agile environments, participating in sprint planning, daily stand-ups, and code reviews to ensure timely project delivery.

Frontend Developer, February to April 2024
Swift-Moove – Remote

- Debugged and resolved front-end issues, reducing user-reported bugs by 25%.
- Maintained version control using Git, facilitating team collaboration and continuous integration processes.
- Developed custom animations and transitions with CSS and JavaScript to create interactive user experiences.
- Collaborated with backend developers to integrate frontend interfaces with RESTful APIs and GraphQL endpoints.
- Enhanced SEO performance by implementing best practices, improving search rankings and increasing organic traffic by 20%.

Portfolio

- **FastMedics**
  An online medical platform that helps individuals connect with medical professionals and purchase medical products. It features a responsive interface, secure payment gateway integration, real-time communication capabilities, and compliance with healthcare data privacy standards.

- **Swift-Moove**
  A financial platform that enables Forex investments while providing Portfolio Management, Investment Research and Analysis, Retirement Planning, and Wealth Management services. It includes real-time Forex market data visualization, an intuitive dashboard for portfolio tracking, and robust security features to protect financial data.
- **Pensioners Software Project**
  Served as Team Lead in the development of a software solution for pensioners, aimed at simplifying pension management. The project involved creating a user-friendly dashboard, integrating a notification system for important updates, and ensuring high-quality standards through agile practices and rigorous testing.

Accomplishment

- **Optimized Website Performance**
  Spearheaded the optimization of a high-traffic e-commerce site, reducing page load time by 40% through code splitting, image compression, and efficient caching strategies, resulting in a 30% improvement in user retention and a 20% increase in conversion rates.
- **Successful UI/UX Overhaul**
  Led the redesign and implementation of a new user interface for a financial services platform, enhancing the user experience by incorporating modern design trends, improving accessibility compliance (WCAG 2.1), and increasing user engagement by 25%.
- **Cross-Platform Compatibility**
  Developed and maintained responsive web applications using HTML, CSS, and JavaScript frameworks such as React.js, ensuring cross-browser compatibility and mobile optimization, which resulted in a 50% reduction in customer-reported bugs related to UI issues.
- **API Integration and Real-Time Data Implementation**
  Integrated real-time data feeds into an investment platform, leveraging WebSockets and RESTful APIs, allowing users to view live financial market updates, which led to a 40% increase in active daily users due to enhanced platform interactivity.
- **Collaborative Agile Development**
  Successfully led frontend development in an Agile team, collaborating with UX/UI designers, backend developers, and project managers to deliver projects on time, achieving a 95% sprint completion rate and contributing to a 15% increase in project delivery speed.

Skills

- Time Management, Microsoft Office , Flexible
- Adaptable, Squarespace, Protopie, Multitasking,
- Resource Management, Project Management Skill
- Advanced Excel Skills, UI/UX Skills, Vue.js, Angular
- Adobe XD, Github , sketchup, Client Management
- Customer Service, Svelte, HTML, CSS, ReactJS
- Analytical and Critical Thinking, Clerical Support
- Oral and Written communication, Marketing Skills
- Interface Management and Navigation, Vite, SASS
- Data Analysis, Figma, End to End Testing, Gulp
- Corel Draw and Photoshop , Graphics Designing
- Client Management, Unit Testing, Lazy Loading

Professional Certification and Workshop

- Professional certification in Frontend Development- Obedient Tech
- Participated in Okpolo Global Tech Workshop

Education

Higher National Diploma, Business Administration and Management, 2022
Delta State Polytechnic– Ozoro, Delta State

National Diploma, Business Administration and Management , 2019
Delta State Polytechnic– Ozoro, Delta State

Senior Secondary School Leaving Certificate – 2014
Wisdom Academy – Warri, Delta State
